# Unlock Powerful Organizational Intelligence

Transform organizational decision-making with a powerful, end-to-end BI platform that automates insight discovery.

Bridge the Gap between
Data and Decisions

Get a transparent view of operations and drive successful business outcomes with a BI platform tailored to organizational needs. Lumenore empowers businesses to harness the full potential of their data and derive impactful insights.

Build
Seamless data acquisition coupled with a powerful architecture for unparalleled performance and improved accessibility.

Impact
Simpler insight discovery that empowers individuals at any skill level to make data-driven decisions.

Intuitive
Text and voice-based insight querying for faster and easier access to intelligence from data.

Intelligence
AI-powered predictive intelligence to drive business agility in a competitive landscape.

Build a Single Source of Truth with a
Data Universe

Make better use of organizational data with a sophisticated Data Universe that streamlines the experience across the data cycle. Lumenore helps businesses derive powerful insights faster by optimizing data ingestion, processing, and transformation. Robust compliance protocols, global security standards, and high-level data governance ensure that organizational data is safe at all times.

Enhance Business Value through
Organizational Intelligence

Organizational Intelligence helps teams across the enterprise to leverage insights tailored to their use case while maintaining quality and traceability. Lumenore delivers a powerful and intuitive BI&A platform with technologically advanced future-ready features.

Self- Service
No dependency on data professionals to access insights

Insights
Advanced tools that derive decision-driving intelligence from data

ML-Driven
Modern technology stack that reduces time-to-insight while maintaining accuracy

Communicate Directly with
Your Data

Access business insights quickly and easily by leveraging conversational intelligence. With Lumenore's NLQ-based 'Ask Me' module, ask queries in plain English through text or a voice-activated device like Alexa, and receive answers immediately.

Predict the Future with
'Do You Know'

Predict market trends and evaluate business risks with Lumenore's AI-driven 'Do You Know' module. Explore trends, spot outliers, and identify correlations that impact business growth and performance. With automated insight discovery, business users can proactively access relevant insights.

Why
Lumenore?

Outlier Detection and Notification
Detect anomalies in data and get real-time notifications using threshold alerts.

Intelligence over Data
Access a repository of organizational intelligence that is actionable and tailored.

Customized Solutions
Get personalized solutions as per industry or organizational needs.

Higher ROI with an End-to-End Platform
Extract more value from your data with industry-leading insights at competitive costs.

Highly Scalable Architecture
Integrate and analyze in real-time large volumes of data stored across various silos.

Completely Self-Service
Ensure faster and more accurate decision-making with an intuitive, no-code platform.

Serving Every Industry with
